

# Individual Screening Report

Date:

To the parents / guardians of

Your child underwent vision screening today at

The screening evaluates vision clarity and eye co-ordination. **It is a screening only and not a complete eye examination.** Comprehensive eye checks are advised at least every 2 years throughout your child's school life.

## Results

On the basis of your child's vision screening, the current results have been categorised as:

**Passed** - The vision screening did not detect any problems in the areas that were assessed.

**Further Assessment Recommended** - On the basis of the results today we recommend that you arrange for your child to have a comprehensive vision examination with an optometrist. Results that were found to be outside normal limits were:

**Visual Acuity** - The sharpness of vision or ability of the eyes to distinguish the details and shapes of objects.

**Colour Vision** - Ability to identify a range of colours on differing backgrounds.

**Depth Perception** - Ability to determine distances between objects and see the world in three dimensions.

### **Spot Vision Camera (a print out from the machine is provided - if available)**

Myopia (near sightedness)

Hyperopia (far sightedness)

Astigmatism (blurred vision)

Anisometropia (unequal refractive power)

Strabismus - (eye misalignment)

Anisocoria (unequal pupil size)

Other

Unreadable Result - Spot Vision Camera unable to make a satisfactory reading

**No Result Recorded** – child is already under the care of an optometrist or screening not completed.

Thank you for your participation in the LEHP-Australia Children's Vision Screening Program.

**We would appreciate receiving updates on the outcomes of this screening and welcome any questions or feedback via email [enquiries@lehp.org.au](mailto:enquiries@lehp.org.au) to help us improve the service we provide.**
